Ordering procedure

Prices are per litre/kg except * = per item

Leave a message (either on our facebook page, or text Dan on 07421 325679). Let us know what you need and a phone number. We will contact you to confirm availability, cost, and to arrange collection and delivery. If you have bottles to fill, please leave them outside on the day of collection. Please either leave cash in a box outside at the specified time (we can give change) or pay via bank transfer – we'll let you know the details.

If you need bottles, do ask - we may have some but cannot guarantee it.

If you have any spare plastic bottles, we could use them for people who are without.
